ABOUT US

Metro Health Supplies (MHS) was conceptualized when Safety & Reliability was the need of the healthcare market. A unique business model was developed to ensure healthcare service and product offerings are always delivered across the globe at the envisioned standards.

We pride ourselves in always exceeding the expectations of our customers and employees.

OUR PRODUCTS

Handpicked certified healthcare products based on clinician & non clinician preferences ensuring quality mandates are supplied.

Gloves

Gloves is a great way to keep your hands safe and protected from bacteria, germs, dirt, or mess. One can use them while cleaning, washing, cooking, gardening, doing electrical work, or using chemicals to prevent any hand injuries.

Plastic Gloves

Plastic Gloves are powder free to reduce potential dust and contamination. The gloves are very smooth for improved feel. Gloves are latex free also, therefore reducing the risk of hypersensitivity and allergic reactions to the skin.

Masks

Masks are made with the intent to keep you safe from bacteria, viruses, dust and other pollutants. There are different types of face masks available in the market that serve different purposes.

Customized Masks

Customize Masks with your name, logo or message of community support. They can also be a thoughtful and timely giveaway idea for your customers or employees.
